

Department of the Army, DoD

§ 650.83

channels to HQDA (DAEN-ZCE) WASH DC 20310.

§ 650.72 Investigation of complaints.

Each operating commander will establish procedures to investigate water pollution complaints and allegations from individuals and water pollution control authorities. In the case of a legal action or potential legal action, the matter will be reported immediately through judge advocate general channels to HQDA (DAJA-RL) WASH DC 20310.

§ 650.73 Water Pollution Control Report— (RCS DD-I&L (SA) 1383).

(a) The water pollution control report portion of the Environmental Protection Control Report is designed to provide HQDA with data on a phased and coordinated plan for control and abatement of water pollution for submission to OSD and OMB; and for development of the five-year Army Environmental Program. Detailed instructions for preparing and submitting this report are provided in subpart J of this part.

(b) The report will cover all portions of the water pollution control program where expenditure of funds for corrective actions is required. This includes all fixed facilities, monitoring equipment, watercraft and other mobile facilities.

Subpart D—Air Pollution Abatement

GENERAL

§ 650.81 Purpose.

The provisions contained in this chapter implement the Clean Air Act of 1970 (Pub. L. 91-604 as amended) and the applicable Federal and State Regulations issued pursuant to this Act; Executive Order 11752, Prevention, Control, and Abatement of Environmental Pollution at Federal Facilities; and DOD Instruction 4120.14, Air and Water Pollution Control.

§ 650.82 Goal and objectives.

It is the Department of the Army's goal to reduce the emission of pollutants into the air from both stationary and mobile sources to the lowest prac-

ticable limits, and at the earliest practicable date. Objectives for obtaining this goal are to—

(a) Identify air pollution emission sources, determine the kinds and amounts of pollutant emissions, and reduce pollutant levels to those specified by Federal, State, interstate, or local substantive standards.

(b) Procure commercial equipment and vehicles with internal combustion engines that meet emission standards, except for combat vehicles specifically excluded by Environmental Protection Agency (EPA) regulations.

(c) Insure that each piece of military equipment is designed, operated, and maintained so that it meets air emission standards unless specifically exempted.

§ 650.83 Explanation of terms.

(a) *Ambient air quality standards.* Those standards established pursuant to the Clean Air Act, for protecting public health and welfare.

(b) *Emission standards.* Permissible limits of emissions established by Federal, State, interstate and local authorities to achieve ambient air quality standards.

(c) *Implementation plans.* Plans developed and administered by a State to designate the methods used to implement, maintain, and enforce ambient air quality standards in air quality control regions. The plans present an inventory of emissions and their source; a comparison of current emissions with current ambient air quality conditions; amount of emission reduction necessary to attain the ambient air quality standards for each category of emission sources; and plans, including transportation control plans, for achieving emission reductions.

(d) *Mobile sources.* Vehicles, aircraft, watercraft, construction equipment and other equipment using internal combustion engines as the means of propulsion.

(e) *Monitoring.* The assessment of emissions and ambient air quality conditions, using techniques such as emission estimates, visible emission reading, diffusion or dispersion estimates, sampling, or measurement with analytical instruments.
